When you get right down to it, all toy haulers have garages and most offer wide-body construction, but that’s where the similarities end. They are definitely not created equally. Upon its introduction, Venom raised the bar and all others are taking notice, starting with the industry’s only 2-year bumper-to-bumper limited warranty that’s approved for fulltime use.

Starting with 6-sided aluminum construction, an all-weather package rated to R38 (including your holding tanks) and Pex in-floor heated waterlines, Venom provides comfort and peace of mind.

Once inside, you quickly notice residential features, well-designed layouts and plush amenities that make Venom more resemble a getaway cottage than your typical RV.

In back, the garage boasts E-Track, one of the best tie-down systems in the industry, comes standard with TV, stereo with speakers and a roll-down screen wall, and offers many options for the recreational enthusiast. Whether you’re wanting a toy hauler to transport your toys or just appreciate the extra versatile space, Venom creates the perfect balance between having your cake and eating it, too.
The kitchen sports an upscale stainless steel appliance package that includes a 30-inch microwave above the range. The deep double stainless steel sink with high arch, pull-out faucet, solid surface countertops, and an abundance of storage and built-in space-saving features make food prep and clean-up easy.
Rear Observation Camera Prep
Optional backup camera increases ease and safety while backing.

Exterior Battery Disconnect
A turn of the knob keeps your battery from discharging.
Rest comfortably in the standard high grade queen size bed that conceals an extra large storage area underneath. Plenty of personal storage is designed into the master bedroom including a spacious closet equipped with a motion light. For late night relaxing, a flat panel TV is mounted on a swing arm for viewing from any angle. The optional queen size power bed and roll-over sofa turn the garage area into a second bedroom at night. During the day, the power bed raises up and stores near the ceiling to make room for your toys, or fold up the sofas for an additional living area.

Standard on all Venom, the all-weather insulation package includes upgrades to roof, floor, ceiling, endcaps and tanks to R-38, allowing you to enjoy your fifth wheel all year long.

Off The Grid solar package with 160W solar panel offers the freedom to unplug while you’re away (optional).

Venom comes standard with 3” x 14” foam-core in-floor straight-line heating system with 35,000 BTU furnace and 15,000 BTU ducted roof air conditioner.

My RV gives you command of your fifth wheel from one location, with the touch of your finger. This allows you to control the awning, landing gear, and slideouts, as well as access to troubleshooting videos and your owners manual.
